

# Worksheet 1: Making Maps

page 1

Name\_\_\_\_\_

Date\_\_\_\_\_

## Section A: Map based on description

### Procedure:

1. Partner #1 observes the mapping area for 30 seconds.
2. Partner #1 describes the area to partner #2.
3. Partner #2 draws the map in the space below.
4. Partner #2 may ask #1 questions, but may not show the map to #1 until it is finished.

## Section B: Map based on observation

Procedure: Partner #2 draws a map in the space below while observing the mapping area.

page 2

Section C: Map based on memory

Procedure: While Partner #2 is observing and drawing the map, Partner #1 draws the map in the area below from memory.

Section D: Pulling It Together

1. What is one similarity between the maps?

2. What are two differences between the maps?

3. Rate the accuracy of each map on a scale of 1 to 5

	not accurate at all	somewhat accurate		highly accurate	
From Description:	1	2	3	4	5
From Observation:	1	2	3	4	5
From Memory:	1	2	3	4	5

4. How might you improve the quality of the maps?
