# **Artifact Analysis**

1. What are these objects?

Inkpot and quills

2. From what materials do you think are they made?

The inkpots look like they are mostly made of glass. The quills are feathers.

3. What do you think they are used for?

They are used for writing.

4. Do we still use this object today? If not, what would we use today to perform the same job as this object?

No, this object is rarely used today. The modern-day equivalent is the pen. (Other acceptable response: computer keyboard)

**5. Write down one question you have about this object.** [Accept any appropriate question.]

Examples: What bird do the feathers come from? How long does the ink last on the pen? What is "ink"?

Courtesy of the Library of Congress

1. What is this object?

Pot-bellied stove

2. From what materials do you think it is made?

Iron

3. What do you think it is used for?

It is used to heat the classroom.

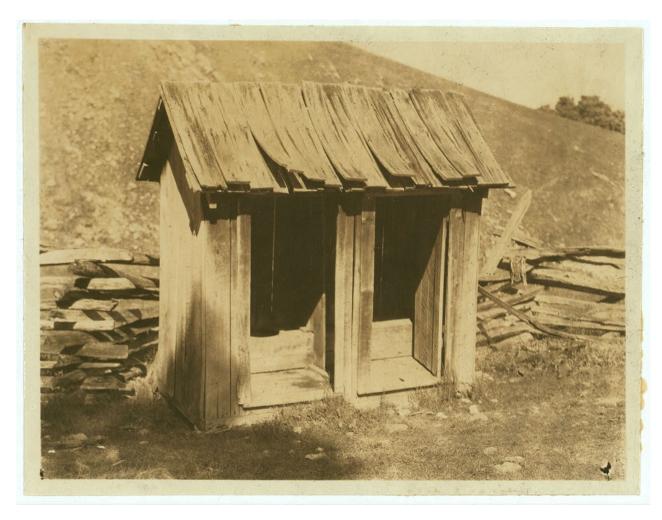

4. Do we still use this object today? If not, what would we use today to perform the same job as this object?

Some homes still have pot-bellied stoves. We also use oil, electric, and even solar heat to warm rooms today.

5. Write down one question you have about this object.

[Accept any appropriate question.]

Examples: What fuels the stove? How warm does it make the room? Could you explain how it works?

Courtesy of the Library of Congress

1. What is this object?

Double outhouse

2. From what materials do you think it is made?

Wood

3. What do you think it is used for?

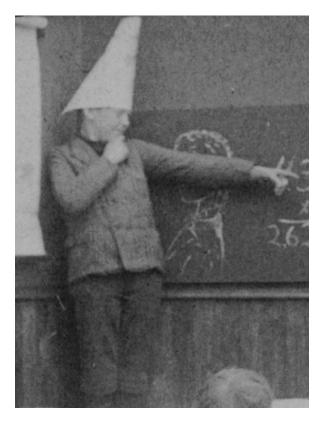

It is used as a toilet.

4. Do we still use this object today? If not, what would we use today to perform the same job as this object?

Outhouses are occasionally still seen at campsites or in rural areas. Most schools have restrooms today.

5. Write down one question you have about this object.

[Accept reasonable questions: Examples: Do students use them in the winter too? Are they clean? Where's the door?]

Courtesy of the Library of Congress

1. What is this object (on the boy's head)?

Dunce cap/Fools cap

2. From what materials do you think it is made?

Paper, material

3. What do you think it is used for?

It was used as punishment for a student that was naughty and it implied being slow-in-learning.

4. Do we still use this object today? If not, what would we use today to perform the same job as this object?

No, students do not wear dunce caps anymore. Punishment for misbehavior can take a variety of forms including being sent to the principal's office.

5. Write down one question you have about this object.

[Accept reasonable questions: Example: How did this custom begin?]

Courtesy of the Library of Congress

1. What is this object (sitting beside the dog)?

Lunch basket

2. From what materials do you think it is made?

Wicker

3. What do you think it is used for?

It is used to carry the student's lunch.

4. Do we still use this object today? If not, what would we use today to perform the same job as this object?

While we may still use the basket for picnics, students today usually bring their lunches in a brown paper bag or buy cafeteria food.

5. Write down one question you have about this object.

[Accept reasonable questions: Examples: Why didn't students use paper bags? What kind of food did students bring for lunch in the baskets?]

1. What is this object?

Slate board

2. From what materials do you think it is made?

Slate and wood

3. What do you think it is used for?

It is used to write on.

4. Do we still use this object today? If not, what would we use today to perform the same job as this object?

No. Today we use paper.

5. Write down one question you have about this object.

[Accept reasonable questions: Example: Why does this board have the alphabet going down the side?]
